

PURE POWER

HIGH OUTPUT ALTERNATORS

TOYOTA

CHRYSLER

CHEVROLET

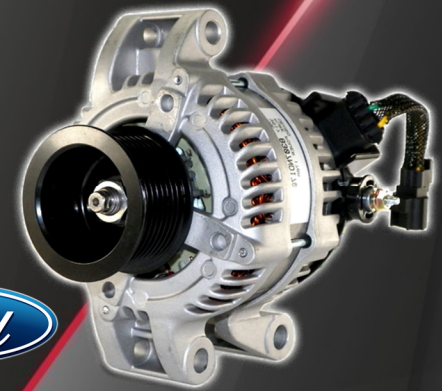

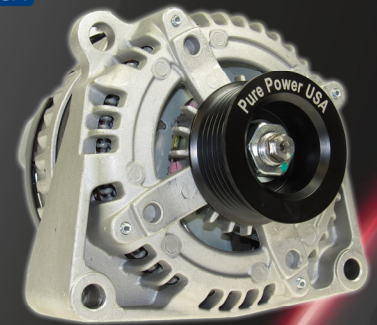

Jeep

HONDA

Cadillac

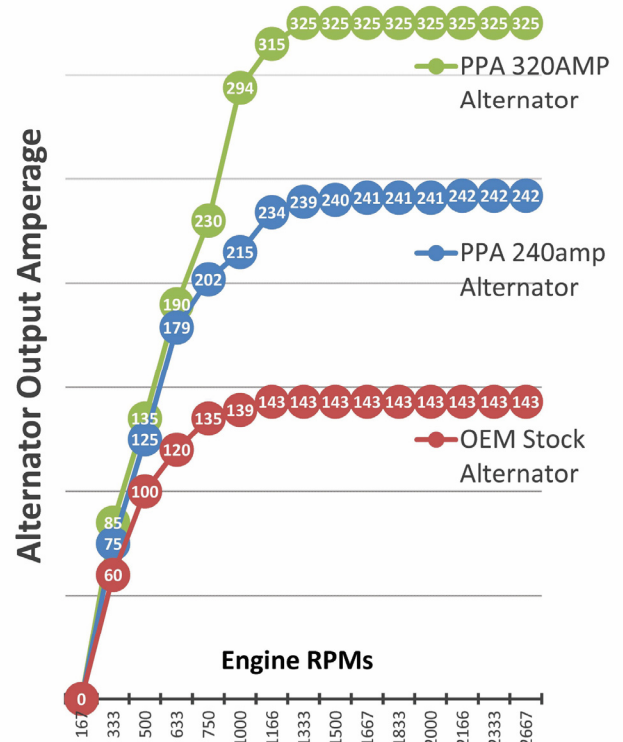

- **The highest charging output at idle in the industry**
- **Innovative dual internal fan designed for amazing heat dissipation**
- **Durable 6 - phase stator technology**
- **Massive Twin Rectifier with 12 diodes rated at 420 amps**
- **Special engineered voltage regulator with higher voltage setting at 14.8 volts thus allowing for faster battery recovery times with higher loads**
- **OEM SKF high heat bearings with double lip seals**
- **OEM long brush design for extra long life**
- **Direct fitment with no modifications needed**
- **2 Year Factory Warranty**

Every alternator is **ENDURANCE TESTED** on the most advanced dyno tester in the industry, DV Electronics Alt-98, to ensure the correct performance specs and durability.

240-350 AMPS

PurePower gives you power when you need it...AT IDLE!

Our Pure Power alternators produce a minimum of 180 to 220 amps at idle. Best in its class!!!
